Why does an aircraft leave a white smoky trail behind it?

Hello my friend

We are happy to join you with the first issue of a brand new fun magazine. Pages and pages of fun and facts await you. I can almost hear you say, "I wonder what is in this magazine?" Maybe it is better to ask: "What isn't?" Everything you seek from news to stories, fun experiments to the realm of animals, from intelligence related questions to funny tales. Consider these sample questions: Did you ever think about bees that travel around the world like aircraft every day? How does an aircraft stay in the air, how can it go so fast and why does it leave a white smoky trail behind it? In our first issue, we share with you about aircraft, which can be much feared and yet are more reliable than taxis. I am sure you will find answers to many questions that you have been wondering about. Furthermore, the adventures of Metin and his Team will unfold as you are taken into their world of adventure and you will experience their thrilling moments.
